**AMASES AWARD FOR THE BEST PAPER
PRESENTED AT THE XLIV AMASES CONFERENCE**

CALL FOR SUBMISSIONS

The Italian Association for Mathematics Applied to Social and Economic Sciences (AMASES) establishes a prize for the best paper presented at the XLIV AMASES Conference which will be held from 17th to 19th September, 2020, in Palermo (Italy).

The Prize, which amounts to 1000 Euro, is reserved to the AMASES members *born after January 1st, 1990*, who personally present their paper at the Conference. The paper submitted to the award must be complete (abstracts, extended abstracts and incomplete papers will not be taken into consideration) and can have multiple coauthors.

Deadline for the application is **June 15th, 2020**. Interested young authors can apply to the prize by doing all the followings before the deadline:

- i) sending in pdf format by e-mail to the AMASES General Secretary (segretario@amases.org) a CV (containing the date of birth) and one only full paper;
- ii) registering regularly to the AMASES Conference (with paid conference fee);
- iii) being AMASES young members (with paid 2020 annual fee).

Applications presented either by not AMASES members, or by people not fully registered to the XLIV AMASES conference, or by people born before January 1st, 1990, or by previous AMASES prizes winners, will be excluded. Previous AMASES prize winners are listed at:

- <http://www.amases.org/awards/conference-paper>
- <http://www.amases.org/awards/doctoral-dissertation>

The prize is awarded according to the final judgment of the AMASES Scientific Committee:

- i) the Scientific Committee will first select a maximum of 4 papers, as the most deserving works submitted for the competition;
- ii) the authors of the selected papers will be invited to present their contribution in a special session of the Conference and will be refunded of the Conference registration fee by the conference organizers;
- iii) the Scientific Committee will choose the winner taking into account the quality of both the paper and the presentation.

If the presented papers are not considered valuable enough, then the Scientific Committee may decide not to proclaim any winner. The Scientific Committee may decide for at most two *ex aequo* winners. The award ceremony will take place in the course of the General Meeting of AMASES members. The authors of the not selected papers will present their contribution in a standard session of the Conference. Further details will be provided in due time.

March 2nd, 2020

The General Secretary
prof. Riccardo Cambini

The President
prof. Bruno Viscolani
