***AMASES BEST JUNIOR PAPER (BJP) AWARD
AT THE 2026 AMASES CONFERENCE***

CALL FOR SUBMISSIONS

The Italian Association for Mathematics Applied to Social and Economic Sciences (AMASES) announces a Euro 500 prize for the Best Junior Paper (BJP Award) presented at the 2026 AMASES Annual Conference.

The prize is awarded to the paper, and it acknowledges the scientific contribution by a young scholar. The prize is reserved for AMASES members born after January 1st, 1996. The candidates must present the paper at the Conference, and it must be clear that their contribution to the paper has been no less than 50%.

A paper presented for the award must be complete: **(extended) abstracts or partial papers will not be accepted.** If the paper has not yet been accepted or published by a journal, it has to be submitted in arXiv form. The paper can be co-authored by at most three people; if the paper is not single-authored, it must carry a declaration of attribution of at least 50% for the candidate and of no more than 25% to senior co-authors (born before December 31st, 1976). The declaration must be signed by all co-authors and appended to the paper.

To apply for the BJP Award, a candidate must meet the following requirements by **June 30th, 2026**:

- i. complete the registration form for the 2026 AMASES Annual Conference and pay the registration fee;
- ii. hold an active AMASES member status, having paid the 2026 annual fee;
- iii. state via email to the Secretary of AMASES (email: segretario@amases.org) their intention to be taken into consideration for the award, attaching the paper and an accompanying statement describing the contribution made in the paper, and specifically by the candidate; this statement must be consistent with the declaration of attribution made within the paper.

Eligibility conditions for the BJP Award are:

- The candidate is an AMASES member, born after January 1st, 1996;
- The candidate has never received an award from AMASES;
- The candidate is fully registered for the 2026 AMASES Annual Conference;
- The paper has been accepted for presentation at the 2026 AMASES Annual Conference, and the candidate personally delivers its presentation at the Conference.

The AMASES Scientific Committee will select a maximum of four papers for consideration before the Conference, informing the nominees. The Scientific Committee awards the prize at its sole discretion, based on the contribution of the paper and the quality of the presentation at the Conference. The prize can have at most two *ex aequo* winners who will share the amount in equal parts. In the absence of papers that the Scientific Committee considers of adequate scientific value, the award may not be assigned.

The prize will be awarded during the Annual Meeting, scheduled as part of the programme of the 2026 AMASES annual conference.

16 January 2026

The Secretary
Prof. Silvia Angilella

The President
Prof. Marco Li Calzi
