

Curriculum Vitae: September 24, 2016

ARSEN PALESTINI

Office address:

MEMOTEF

Sapienza University of Rome

Via del Castro Laurenziano, 9 00161 Rome Italy

Telephone: 0039 06 4976 6249

E-mail address: **Arsen.Palestini@uniroma1.it**

Other e-mail addresses: **palestini@math.unifi.it**, **arsen.palestini2@unibo.it**

URL: *http://www.memotef.uniroma1.it/newdip/utenti/palestiniarsen/*

Personal information:

Date of birth: June 3, 1973 in Bologna, Italy. Citizenship: Italy

Home address: Via del Forte di Pietralata 33/D, 00158 Rome Italy

Education:

Degree in Mathematics in 1998 at University of Bologna, Italy.

PhD in Mathematics in 2005 at University of Florence, Italy.

Post-doctoral fellowship in Economics in 2006 at University of Bologna, Italy.

Research fellowship (Assegno di Ricerca) in Differential game theory and economic applications in 2008 at the Department of Economics of University of Bologna, Italy.

Assistant Professor in 'Mathematical Methods for Economics and for Actuarial and Financial Sciences' since 2010 at MEMOTEF of University of Rome La Sapienza, Italy.

Teaching and professional experiences:

1. 2002-2003: teaching assistant in the course in Geometry and Algebra, Faculty of Engineering, University of Bologna.
2. 2003-2004: teaching assistant in the course in Geometry and Algebra, Faculty of Engineering, University of Bologna.
3. 2004-2005: teaching assistant in the course in Geometry and Algebra, Faculty of Engineering, University of Bologna.

4. 2004-2005: high school teacher in Mathematics at L.S. Marconi (Parma).
5. 2005-2006: high school teacher in Mathematics at IPSIA and ITG (Ascoli Piceno).
6. 2006-2007: lecturer at the preliminary course in Mathematics, Faculty of Engineering, University of Bologna.
7. 2006-2007: teaching assistant in the course in Geometry and Algebra, Faculty of Engineering, University of Bologna.
8. 2006-2007: lecturer in the course in Optimal Control Theory, PhD in Economics, University of Bologna.
9. 2007-2008: teaching assistant in the course in Mathematics for Applied Economics, Faculty of Political Sciences, University of Bologna.
10. 2008-2009: teaching assistant in the courses in Mathematics and of Mathematics for Applied Economics, Faculty of Political Sciences, University of Bologna.
11. 2008-2009: lecturer in the course in Optimal Control and Differential Game Theory, PhD in Economics, University of Bologna.
12. 2009-2010: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.
13. 2009-2010: assistant professor in the courses in Mathematics and in Mathematics for Applied Economics, Faculty of Political Sciences, University of Bologna.
14. 2010-2011: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.
15. 2010-2011: lecturer in the course in Financial Mathematics, Faculty of Economics, Sapienza University of Rome.
16. 2010-2011: lecturer at the course in Games and industrial Organization, PhD School in Economics, Sapienza University of Rome.
17. 2011-2012: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.
18. 2011-2012: lecturer in the course in Financial Mathematics, Faculty of Economics, Sapienza University of Rome.
19. 2012-2013: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.

20. 2012-2013: lecturer in the course in Financial Mathematics, Faculty of Economics, Sapienza University of Rome.
21. 2013-2014: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.
22. 2013-2014: lecturer in the course in Financial Mathematics, Faculty of Economics, Sapienza University of Rome.
23. 2014-2015: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.
24. 2014-2015: lecturer in the course in Financial Mathematics, Faculty of Economics, Sapienza University of Rome.
25. 2015-2016: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.
26. 2015-2016: lecturer in the course in Financial Mathematics, Faculty of Economics, Sapienza University of Rome.
27. 2015-2016: teaching assistant in the course of Calculus IV, Department of Mathematics and Physics, University of Rome 3.
28. 2016-2017: lecturer at the Crash Course in Mathematics, LMEC, Faculty of Economics, University of Bologna.

Communications and seminars:

- May 26, 2004: Rappresentazioni di alcuni valori di potere in giochi cooperativi, Department of Mathematics for Decisions, University of Florence.
- July 13, 2004: The Myerson value as a barycentre, VI Spanish Meeting on Game Theory and Practice, Elche, Spain.
- September 22, 2004: Reformulations and geometric properties of some power values in cooperative games, VII Meeting SIMAI, Isola di S. Servolo.
- September 11, 2004: Reformulations and geometric properties of some power values in cooperative games, XXVIII Meeting AMASES, University of Modena.
- June 16, 2006: Minimax Multi-District Apportionments, SING 2, University of Foggia.
- September 6, 2006: Minimax Multi-District Apportionments, XXX Meeting AMASES, University of Trieste.

- January 24, 2007: Power indices in weighted voting games: representations and applications, Lunch Seminar, Department of Economics, University of Bologna.
- May 18, 2007: Power indices in weighted voting games: representations and applications, Meeting SIMAI 'Perspectives of Applied Mathematics in Italy', University of Parma.
- September 5, 2007: On Multi-Ordered Apportionments, XXXI Meeting AMASES, University of Lecce.
- September 10, 2007: Dynamical Analysis of a Demand Governed Market in relation to Innovative Commodities, Workshop 'Marketing decision models: Dynamic Optimization & Game theory', University of Padua.
- June 27, 2008: Equilibria in additively separable differential games, SING 4, Spain Italy Netherlands Meeting on Game Theory, University of Wroclaw, Wroclaw, Poland.
- July 4, 2008: Deterministic aspects of herd behaviour, International Summer School on Risk Measurement and Control, LUISS, Rome.
- September 4, 2008: On the time consistency of equilibria in additively separable differential games, XXXII Meeting AMASES, University of Trento.
- December 4, 2008: A class of best-response potential games, workshop 'Dynamic games in economics', Rimini Centre for Economic Analysis.
- April 8, 2009: Hamiltonian potential functions for differential games, Lunch Seminar, Department of Economics, University of Bologna.
- June 25, 2009: Hamiltonian potential functions for differential games, GTM 2009, Third International Conference on Game Theory and Management, Graduate School of Management, St. Petersburg State University, St. Petersburg, Russia.
- July 1, 2009: Hamiltonian potential functions for differential games, SING 5, Spain Italy Netherlands Meeting on Game Theory, VU University Amsterdam, Amsterdam, The Netherlands.
- September 3, 2009: Hamiltonian potential functions for differential games, XXXIII Meeting AMASES, University of Parma.
- December 10, 2009: On Lie-point symmetries for differential games, XXXIV Simposio de la Asociacin Espaola de Economas (SAEe), University of Valencia, Spain.

- January 11, 2010: Regulating Environmental Externalities through Public Firms: A Differential Game, Department of Economics, Università Ca' Foscari, Venice.
- January 20, 2010: Regulating Environmental Externalities through Public Firms: A Differential Game, Lunch Seminar, Department of Economics, University of Bologna.
- April 7, 2010: A Stochastic Optimal Control Model of Toxic Asset Reduction, MAF 2010, Fourth International Conference, Mathematical and Statistical Methods for Actuarial Sciences and Finance, Ravello.
- September 3, 2010: On Lie-point symmetries for differential games, XXXIV Meeting AMASES, University of Macerata.
- September 3, 2010: Regulating Environmental Externalities through Public Firms: A Differential Game, XXXIV Meeting AMASES, University of Macerata.
- December 13, 2010: On Lie-point symmetries for differential games, workshop 'Dynamic games in economics', Rimini Centre for Economic Analysis.
- February 22, 2011: Controllo ottimo e giochi differenziali: dalla teoria alle applicazioni alla modellistica economica, workshop 'Terza giornata della ricerca', MEMOTEF, Sapienza University of Rome.
- July 21, 2011: Extraction of exhaustible resources as a noncooperative game with random terminal instant, 8th International ISDG Workshop, University of Padova.
- February 23, 2012: Open Innovation in a Dynamic Cournot Duopoly, workshop 'Quarta giornata della ricerca', MEMOTEF, Sapienza University of Rome.
- June 2, 2012: Open Innovation in a Dynamic Cournot Duopoly, 12th Viennese Workshop on Optimal Control, Dynamic Games and Nonlinear Dynamics, Vienna University of Technology, Austria.
- February 28, 2013: On the Feedback Solutions of Differential Oligopoly Games with Hyperbolic Demand Curve and Capacity Accumulation, workshop 'Quinta giornata della ricerca', MEMOTEF, Sapienza University of Rome.
- July 4, 2013: On the Feedback Solutions of Differential Oligopoly Games with Hyperbolic Demand Curve and Capacity Accumulation, 26th EURO-INFORMS Conference, Sapienza University of Rome.

- July 23, 2013: A multi-factor inequality approach to a transfer scheme: the case of Common Agricultural Policy, Fifth meeting of the Society for the Study of Economic Inequality (ECINEQ), University of Bari.
- September 6, 2013: On the Feedback Solutions of Differential Oligopoly Games with Hyperbolic Demand Curve and Capacity Accumulation, XXXVII Meeting AMASES, University of Insubria.
- October 24, 2013: On the Feedback Solutions of Differential Oligopoly Games with Hyperbolic Demand Curve and Capacity Accumulation, 54th annual conference SIE, University of Bologna.
- February 27, 2014: Cost of inequality and cooperative games, workshop 'Sesta giornata della ricerca', MEMOTEF, Sapienza University of Rome.
- June 6, 2014: Effects of Law-Enforcement Efficiency and Duration of Trials in an Oligopolistic Competition Among Fair and Unfair Firms, Oligo Wokshop 2014, Sapienza University of Rome.
- October 24, 2014: Cost of Inequality, the Uniform Rule and Cooperative Games, 55th annual conference SIE, University of Trento.
- February 25, 2015: Allocation of risk capital in a cost cooperative game induced by a modified Expected Shortfall, workshop 'Settima giornata della ricerca', MEMOTEF, Sapienza University of Rome.
- July 14, 2015: A graph-based approach to inequality assessment, Sixth meeting of the Society for the Study of Economic Inequality (ECINEQ), University of Luxembourg, Luxembourg.
- February 24, 2016: Effects of Law-Enforcement Efficiency and Duration of Trials in an Oligopolistic Competition Among Fair and Unfair Firms, workshop 'Ottava giornata della ricerca', MEMOTEF, Sapienza University of Rome.
- June 29, 2016: A graph-based approach to inequality assessment, 13th Meeting of the Society for Social Choice and Welfare, University of Lund, Sweden.
- July 4, 2016: Allocation of risk capital in a cost cooperative game induced by a modified Expected Shortfall, 28th European Conference on Operational Research, University of Poznan, Poland.
- September 17, 2016: Inequality assessment in a dynamic framework with heterogeneous agents, XL Meeting AMASES, University of Catania.

Research interests:

GAME THEORY AND ECONOMICS:

- a) Determination of classes of dynamic games to be investigated from the viewpoints of: time-consistency, properties of open-loop and closed-loop Nash and Stackelberg equilibria. Development of techniques to find out solutions of Hamilton-Jacobi-Bellman equation explicitly.
- b) Investigation of properties and construction of algorithmic computation techniques for power indices in cooperative games. Exploitation of such properties to evaluate control power both in coalition theory and in economic inequality issues.
- c) Construction of models for Environmental Economics and Law and Economics.
- d) Theoretical evaluation of solution concepts in cooperative games applied to voting theory and International Environmental Agreements.

DIFFERENTIAL EQUATIONS AND APPLICATIONS:

- a) Exact integration of ordinary differential equations by elliptic functions and determination of original formulas for computation.
- b) Asymptotic properties of exact solutions of dynamic optimization models of advertising, resource extraction, cooperative/noncooperative oligopoly.
- c) Investigation of asymptotic and stability properties of contagion models and applications to financial markets.

Published books:

- 1) 'Manuale di Geometria: Teoria', with Giuliano Parigi, Pitagora Editrice Bologna, 2003.
- 2) 'Manuale di Geometria: Esercizi', with Giuliano Parigi, Pitagora Editrice Bologna, 2003.
- 3) 'Manuale di Geometria: Esercizi e Temi d'esame svolti', with Giuliano Parigi, Pitagora Editrice Bologna, 2006.

Published and forthcoming papers:

MATHEMATICS FOR ECONOMIC AND SOCIAL SCIENCES

- 'Reformulation of Some Power Indices in Weighted Voting Games', *Homo Oeconomicus*, Vol. 22, 4, 2005, pp. 487-507.
